

Join us on the tour around the best Polytechnic Universities of Russia!

VISIT the most scientifically prominent places of the country: universities, science institutes, centres and museums;

COMPLETE a scientific project in cooperation with your young Russian colleagues;

SEE lots of places of historical and cultural value of Moscow and other large and spectacular cities of Russia.

YOUR SCIENTIFIC PROGRAMME MAY INCLUDE:

- **Work at research project in International student teams**
You may even choose to conduct several projects in different scientific fields simultaneously. If so, we recommend you to divide your students into several groups beforehand. Each team will be working at their project for 1-2 days and if necessary continue their work when they come back home. The original design of the projects will be developed by the tutors - young scientists from Russia.
- **Lectures** by leading Russian scientists on topical subjects
- **Visits to the universities of the city**
- **Visits to the science centers and museums of the city**

YOUR CULTURAL PROGRAMME MAY INCLUDE:

- **Visits to the places of historical and cultural value of the city**
- **Cultural activities** (theatres, opera & ballet, circus, traditional music, etc.)

WE CAN ALSO OFFER A TRAINING PROGRAMME, WHICH MAY INCLUDE:

- **Communication trainings**
- **Team-building trainings**

NUMBER OF PARTICIPANTS IN A GROUP:

10-40 high school or university students and 1-4 teachers
